Teach **THIS**

Turnaround facts mean you can 'turn around' or reverse the numbers and still get the same answer.

$$6 + 8 = 14$$

$$8 + 6 = 14$$

Show your understanding of turnarounds by filling in the black spaces.

Using the numbers in the circles below write two addition facts.

1.

$$6 + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = 11$$

2.

$$12 + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = 16$$

3.

$$6 + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = 21$$

FAST FINISHER:

In your book or on the back of this piece of paper, can you write any of the related subtraction facts for the facts above?

$$2 + 8 = 10$$

$$8 + 2 = 10$$

$$10 - 8 = 2$$

$$10 - 2 = 8$$
