WELCOME TO OUR INTERNET SAFETY UNIT OF WORK

Lesson 6

Why does the computer keep coughing?
~ It has a virus.

CYBER CAT'S LEARNING INTENTIONS

What are laptops favourite snacks?

~ Computer chips.

We are learning to develop our understanding and awareness of online safety, including what is safe and unsafe online, cyberbullying and the risks of sharing personal information.

CYBER CAT'S SUCCESS CRITERIA

How does a computer eat computer chips?

~With mega-bytes.

We will learn to:

1. Identify types of cyberbullying and give examples of these
2. Explain the important role of the bystander or onlooker
3. Explore and discuss the risks of sharing images online
4. Explain why our privacy and personal information need to be kept safe online
5. Identify what makes a respectful and safe online friend
6. Use Google Docs or our workbooks to present our learning and understanding.

WATCH THIS VIDEO OF MRS PAYNE EXPLAINING OUR LESSON'S INSTRUCTIONS.

LET'S GET STARTED!

Cyber Cat wants to introduce you to Grace, Joel, Dean, Ollie and Ryan, who are the characters in the video you are about to watch on our next slide. Each of these children face an online safety problem. Pay close attention to the details of each of their problems so that you can answer the questions that follow from the video slide.

Grace

Joel

Dean

Ollie

Ryan

WATCH THIS VIDEO

YOUR MISSION

Reflecting on the video you just watched, your job is to write down what cyber problem each character faced, how it affected their lives and how they went about trying to resolve it. You could do this on a Google Doc or in your workbooks.

Example:

Bianca is Grace's best friend. Bianca is upset when her photograph with insulting captions is posted online without her permission on Grace's social media page. Some of Grace's followers add nasty comments.
This affects her life by making her feel humiliated, embarrassed and self conscious. It also affected her friendship with Grace because the image was posted on Grace's social media page.
Bianca spoke to her friends about the problem and also told one of her teachers. The teacher spoke to Bianca's whole class about the problem, without naming or describing the incident. The police were also involved who spoke with the class about behaving safely online.
